

Last Sunday, 23rd/10/2016, “Antigone” in cooperation with the “Lighthouse of the World” held an event that brought together children from the “Hospitality Refugees’ Centre” in Diavata with the children of the “Lighthouse of the World”, a NGO which operates with Roma people in Dendropotamos. Not only young people but also older ones took robotic lessons in groups and later on, as the day included, they all visited the historical spots of the town (White Tower, Castles, Harbor). Children felt excited with the walk and are now looking forward to the next ones in the future.
